Customer Advisory

01.08.2026

Dear valued customers,

Subject: ESL Kenya D&D Tariff Effective from 1 Sep 2026

As part of Emirates Shipping Line ongoing commitment to maintaining high service standards and reliability across our network, we wish to inform you of the changes to shipping line charges in Kenya including transit destinations.

Recent significant increase in operational costs, including higher depot handling charges, increased transport costs, and the rising cost of handling containers in Kenya, these factors have substantially impacted our cost-of-service delivery, making below adjustment necessary to ensure the continued provision of efficient and reliable services.

Change to demurrage structure and tariff

Location	Free days - Current		Free days - Revised		Effective date
