Customer Advisory

Date: 22nd September 2026

Dear Valued Customers

Subject: Clarification of CFS charges at destination Dar Es Salaam, Tanzania — effective discharge date 5th October 2026

The application of applicable charges will take effect from discharge date 5th October 2026.

Emirates Shipping Line wishes to advise our valued customers that the CFS charges applicable at destination Dar Es Salaam, Tanzania, have been aligned with current market levels and hereby provide clearer visibility of the applicable tariff items and payment locations.

The tariff structure follows the applicable local TASAC guidelines and clearly identifies which charges are payable at Port of Loading (POL) and Port of Discharge (POD), together with the paying party and the party to whom payment is to be made.

For ease of reference, the charge application is summarized below:

Charge category	Charge / basis	Paid at	Paying party	Paid to
Stripping and transfer from Port to ICD	TASAC tariff	POD	Consignee	CFS/ICD
ESL CFS post-stripping charge	USD 250 per 20' / USD 500 per 40'	POL	Shipper	ESL

This advisory is intended to improve transparency, simplify charge application, and provide all parties with clear visibility of where each tariff component is payable.

We thank you for your continued support.

East Africa Trade Management Team
